

●► **accord** *(EU, Launch)*

Accord Healthcare launches its denosumab biosimilars, OSVYRTI and JUBEREQ, in Europe for bone health conditions like osteoporosis

●► **FRESENIUS KABI** *(FDA, Approval)*

Fresenius Kabi's partner, SamChunDang Pharm, receives FDA acceptance to review its proposed aflibercept biosimilar for ophthalmic disorders

●► **SAMSUNG BIOEPIS** *(EMA, Approval)*

Samsung Bioepis' pre-filled syringe presentation of its Lucentis biosimilar, BYOOVIZ, receives European approval

●► **Hope Medicine** *(FDA, Fast Track)*

Hope Medicine's HMI-115 gains FDA Fast Track status, accelerating global development for endometriosis pain

●▶ **REPLICATE**

(Collaboration)

Replicate Bioscience partners with Brazil's Instituto Butantan to develop and commercialize their novel srRNA rabies vaccine (RBI-4000) across Latin America

●▶ **Oranomed**

(Collaboration)

Orano Med and Roche are advancing their collaboration into clinical development for a novel cancer treatment using two-step pretargeted radioimmunotherapy (PRIT) technology

●▶ **Innovent Biologics**

(Collaboration)

Innovent and Takeda form a global strategic partnership, worth up to \$11.4 billion, to develop and commercialize next-generation cancer therapies

●▶ **Rentschler Biopharma**

(Collaboration)

Rentschler and Coriolis partners for end-to-end biologic development, combining Coriolis's formulation expertise with Rentschler's bioprocess development and manufacturing

●▶ **LabGenius Therapeutics**

(Collaboration)

LabGenius and Sanofi are partnering for a second time, using its AI-driven EVA platform to co-optimize Sanofi's NANOBODY proteins for new inflammation targets

●▶ **neurimmune**

(Collaboration)

Neurimmune expands partnership with AstraZeneca's Alexion for NI009 in AL amyloidosis, worth up to \$780M

●▶ **Fortrea**

(Collaboration)

SCTbio and Fortrea collaborates to accelerate cell and gene therapy development by providing synchronized solutions across the entire development lifecycle

●▶ **natera**

(Acquisition)

Natera acquires Foresight Diagnostics for ~\$450M to strengthen ultrasensitive MRD testing in solid tumors & lymphoma

●▶ **SANDOZ**

(Acquisition)

Sandoz completes the strategic acquisition of Just-Evotec Biologics EU SAS, reinforcing its global leadership position in biosimilars manufacturing

●▶ **sanofi**

(Acquisition)

Sanofi completes its acquisition of Vicebio, boosting its vaccine pipeline with an early-stage non-mRNA candidate against both RSV and hMPV
